## MOUNTAINS TO SEA PREMIUM WINE TOUR

Join us on an unforgettable, private, bespoke wine tour that will take you on an unforgettable journey of the senses. You'll be whisked away in a zero-emissions, fully electric vehicle on an adventure that will let you experience the stunning Hawke's Bay region.

This exclusive, expert-guided tour is for a maximum of four guests (larger groups by arrangement). We aim to visit a minimum of three unique wineries across the region in five hours (can be extended), providing time to experience each and enjoy sightseeing in between. An accompanying platter or time for lunch at a premium winery restaurant can be included in your itinerary, creating an immersive experience of Hawke's Bay's food and wine.

There are **two options** for your experience.

The **Tour-Only** option provides visitors with a private, bespoke, expert-guided wine tour in a fully electric vehicle. Tasting, food matches or lunch are at your own expense.

This option provides guests with greater flexibility to decide on the day what they'd like to experience in terms of tastings and accompanying food. Prices are **from \$120pp** depending on your group size. Let us know the wineries you'd like to visit and whether you'd like to include a lunch stop so we can begin planning your day out.

An **All-Inclusive** option includes the above with the addition of three tastings and a platter (or two small plates) at one winery. This is a fantastic option for those who would like everything taken care of from pick up to drop off. Prices are **from \$240pp** depending on your group size and finalised itinerary. Let us know the wineries you'd like to visit and whether you'd like to include a lunch stop as well, and we'll confirm a price.

A 50% non-refundable deposit is required to confirm the booking. Payable by invoice. The final payment can be in the vehicle via credit card/paywave or invoice by arrangement. Extra time can be included at \$80 per hour.

## YOUR HOST AND TRANSPORT

Duncan has a background in winemaking with vintages at Kumeu River Estate and Villa Maria Estate. He is also an experienced educator and the perfect host for your time in Hawke's Bay.

You'll be driven in a fully electric, zero-emissions BYD Atto 3, New Zealand's 2023 Car of the Year. It features a full glass roof, comfortable seats and climate control. Demonstrate care for the environment (Kaitiakitanga) through your choice of transport during your visit.
